176 East Fifth Street
St. Paul, Minnesota 55101
Telephone (612) 227-0911

March 3, 1972

Dear Mr. Norman:

Last December our representatives called on you concerning your company's taking over of the assets of Reilly Tar & Chemical Corporation which holds several permits from us at Renton, (Quendall) Washington.

*Quendall Terminals
P.O. Box 477
Renton, Wash.*

Enclosed in duplicate is new Permit No. 206,267 in favor of Quendall Terminals Company, a joint venture of Barbee Mills Company, Inc. and J. H. Baxter & Company covering your continued use of a private road crossing at survey station 938 plus 02 as indicated in red on Exhibit "A" attached to the permit. This agreement is effective as of March 1, 1972 and replaces Permit No. 41026 (NP) held by Reilly Tar & Chemical Corporation.

Also enclosed in duplicate is new Permit No. 206,268 covering a 1" water pipeline crossing and two 4" tar lines, one 1" steam line, and one 1" air line in a single encasement pipe as indicated in red on Exhibit "A" attached to that permit. These facilities were formerly included under Permit No. 87616 (NP) held by Republic Creosoting Company. This agreement is also effective as of March 1, 1972. As requested, we are cancelling all other permits with Reilly Tar & Chemical Corporation covering facilities removed or no longer being used.

Rental under the new agreements will be at the rate of \$20 for each five-year period that they remain in effect, which allows us to keep track of them through periodic billing. Will you please arrange for execution of both copies of each permit for your company in the presence of witnesses and return them to this office for completion by Burlington Northern Inc., together with a check in the amount of \$40. Your file copies will then be returned to you.

Very truly yours,

B. J. Stasson
